

Bill Jennings BA(Hons) Dip Arch RIBA BSc Proj Man, DMS AP, MaPS

Director of the company, Bill is a qualified architect, with qualifications in Project Management (BSc) and Business Management (DMS).

He has worked in both Local Authority and private practice situations for small 2 person practices and for 50 staff national companies. He has also worked in Europe for 'Blue Chip' clients.

Bills architectural experience includes designing the "Back of House" facilities in the 'Millennium Dome' the 'Princess of Wales' hospital in South Wales, specialist laboratories, aircraft hangers, sports centres and 'fun pool's'.

He has designed numerous residential facilities from individual houses for 'one-off' clients to new-build housing estates and apartments, and residential conversions of hospitals, mills and church buildings.

Whilst working at another practice he was also team leader for the work on the catholic diocese buildings across the North West.

Since forming Jennings Design Architects, Bill has been responsible for:

- | | |
