

Matthew Cust HND Building Studies

Matthew joined 'Jennings Design Associates' in early 2005 with over 15 years experience derived from working at Cordingleys Chartered Surveyors, Philip Millson Architecture and Haden Freeman.

Examples of Matthews work with other practices include:

Site wide housing schemes for 30+ plots and numerous spec houses and site wide developments for private contractors. The conversion of two grade 1* listed buildings. The full refurbishment of over 50 bars and restaurants for Punch Pub Co and the main stand and changing rooms for Hyde United FC.

Matthew is a committed individual and team player with a through knowledge of building regulations. He has recently undertaken study to become a registered assessor for 'Code for Sustainable Homes' to expand a keen interest in sustainability of buildings, materials etc.

The vast majority of experience has been based around the 'core' leisure and residential sectors. Other experience has been gained from working on conversion of listed buildings, site development in the industrial sectors and development in commercial sectors.
